## Alliance Partners

Complete  
Solutions for

AEC/CAD/GIS  
Photography  
Proofing/Prepress  
Signage  
Scan/Copy  
Cost Tracking

## OVERVIEW

The imagePROGRAF Alliance Partner Program is a collection of software solutions that add value within the imagePROGRAF customer environment. The program was created to identify, develop, and market software solutions that not only add value to Canon's large-format printers, but also address customer and industry-specific needs in the marketplace.

We know achieving remarkable results doesn't need to be a complicated process. That's why the simple solutions presented in the imagePROGRAF Alliance Partner program create a unique resource for end-users to accomplish their targeted results.

With a full line of Canon large-format printers designed to be incorporated into a variety of market segments, the imagePROGRAF Alliance Partner solutions address a wide range of applications including AEC/CAD/GIS, photography, proofing/prepress, signage, scan/copy, and cost tracking. These solutions will add functionality to the imagePROGRAF devices that aren't available in the native print driver, creating a complete workflow solution.

The members of the Alliance Partner Program have been approved by Canon to be a part of the program based on a set of standard and compatibility requirements. To ensure the reliability and benefits of a complete large-format printing solution using the providers' software and Canon's imagePROGRAF large-format printers.

## ALLIANCE PARTNERS

**www.cgs-oris.com**

CGS Publishing Technologies International, with our ORIS family of products, is a global leader of color management solutions, digital proofing technology, and specially formulated media for the commercial printing, graphic arts, and publishing industries. Patented automatic color management delivers accurate and reproducible color to any output device, whether digital press, wide format, digital proofer, or conventional press—all to GRACoL, SWOP, and Fogra standards.

**Products: ORIS Color Tuner // Web, ORIS Press Matcher, ORIS Ink Saver, ORIS Certified Proof**

**www.efi.com**

EFI is the world leader in customer-focused digital printing innovation. EFI's award-winning solutions, integrated from creation to print, deliver increased performance, cost-savings, and productivity. Its award-winning software RIP solutions with Bestcolor® Technology offer flexible, economical tools for proofing, large-format, and super-wide-format production and high-quality ink-jet prints. They transform ink-jet, laser, and LED printers into powerful proofing and production systems and are renowned for outstanding performance, color quality, flexibility, and intuitive interface.

**Products: EFI Express, EFI Colorproof XF, EFI Fiery XF**

**www.ergosoftus.com**

ErgoSoft is a developer of high-fidelity RIP software. Each ErgoSoft RIP is uniquely designed to meet the specific requirements of fine art, photography, large-format graphics, dye sublimation, custom garment decoration, and digital textile printing. ErgoSoft continues to set new standards for image fidelity, color accuracy, and job productivity. Its ink-jet RIP software further establishes the reputations of StudioPrint, PosterPrint, and TexPrint as the preferred RIPs for digital printing professionals who require the highest-quality digitally imaged product.

**Products: PosterPrint, StudioPrint, TexPrint**

**www.gmgcolor.com**

Founded in 1984 and located in Tuebingen, Germany, GMG is a leading provider of high-end color management and proofing solutions for the entire graphic arts industry. More than 9,000 systems are in use worldwide across the industry spectrum from ad agencies, prepress houses, and offset printers to newspapers, flexo converters, and international gravure printing plants. GMG is recognized for excellent color accuracy, control, and cost-effectiveness. Its products

consistently score exceptionally well in independent tests throughout the world. GMG participates in standards development, testing, and educational programs dedicated to improving the effectiveness of color graphic communications.

**Products: GMG ColorProof, GMG DotProof, GMG ColorServer, GMG InkOptimizer, GMG ProofControl, GMG PrintControl, GMG RapidCheck**

**www.onyxfx.com**

Since 1989, ONYX Graphics, Inc. has developed commercial printing software and solutions for the digital color printing marketplace. The ONYX® software suite serves a broad range of digital production devices with high-quality output. Its award-winning and market-leading products include ONYX ProductionHouse™, ONYX PosterShop®, and ONYX RIPCenter™, all of which support more than 350 popular printer models and cutters ranging in size from small to large and in type from grand-format ink-jets to flatbed printers. ONYX is a consistent leader in large-format digital color printing software with over 100,000 installations worldwide.
